**The Energi Difference**

**Selection of the Best Companies:** Energi's Program is only offered to companies who exhibit a commitment to loss prevention and who implement industry best practices. These companies sustain better loss experience which directly results in controlling their insurance costs. In order to ensure this, ALL member companies must meet our high underwriting standards and are required to pass a risk assessment compliance audit.

**Loss Prevention & Risk Management:** The Energi program provides on going Risk Management and Loss Prevention support including training and communication programs that support industry best practices.

**Claims Management:** The program offers fast, efficient and fair resolution of claims. Energi's aggressive claims management oversight focuses on inclusion of the policyholder rather than exclusion during the claims process.

**Coverage:** Energi's underwriters have created a program with all necessary coverage's some of which competitors may not include. The Energi Program will consistently deliver responsive and creative solutions to address your unique exposures.

**Competitive Premiums:** The Energi Program offers fair, equitable and justifiable premiums. Since premiums are based upon *your* loss experience, not on the loss experience of your industry peers, you will see more stability in your pricing. The insurance program will eliminate the cyclical pricing nature of the traditional insurance market.
